Solar-Powered Ships Cleaning Our Oceans

Autonomous vessels to collect floating waste in open seas and along coastlines. Some are already solar-powered and can operate 24 hours a day without causing pollution.

Question:

Where is the Great Pacific Garbage Patch located?

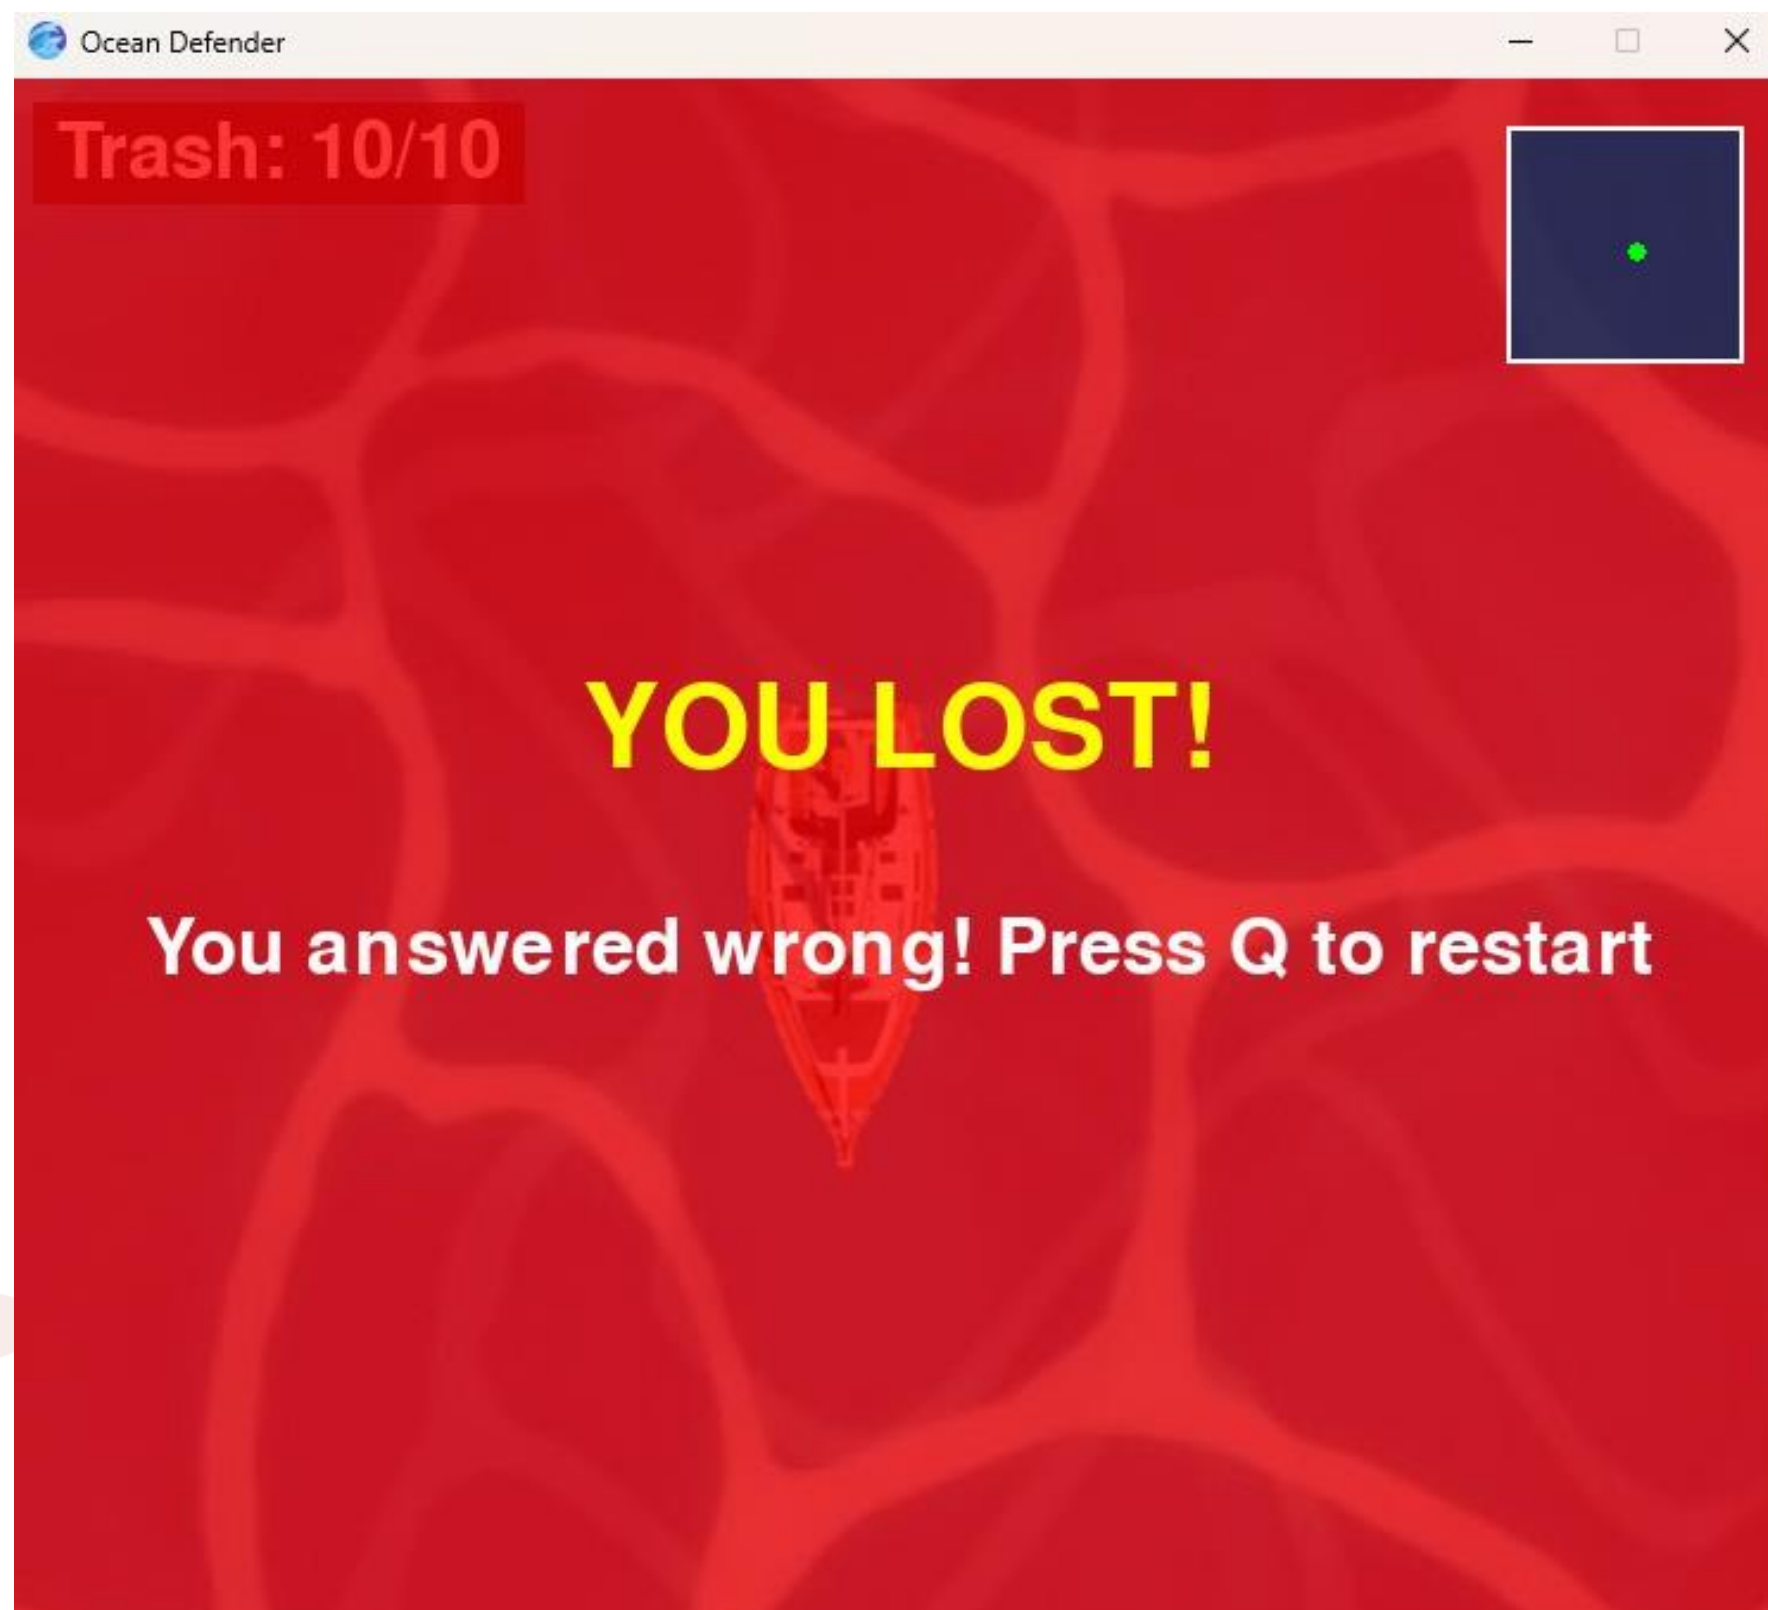

A Atlantic Ocean

B Near Alaska

C Off California

D Indian Ocean

Mission

Monitor - Through the game, one of the objectives is to collect trash, drawing attention to marine pollution in our oceans (because the trash in the game represents real trash in the oceans).

Prevent - During level 2, methods for preventing and reversing marine pollution will be presented.

Raise Awareness - Throughout the game, impactful facts and images will be shown to draw attention to the major problem of marine pollution.
